

FY 23 Town Manager Recommended Budget

DPW – Field Operations

January 31, 2022

DPW - OPERATIONS

Programs

- 421 - DPW Administration
- 422 - Highway
- 423 - Snow and Ice
- 424 - Street Lights
- 425 - Public Grounds
- 433 - Transfer Station
- 499 - Fuel Pump

Number of Employees (FTE's)

0.80	C&D Attendant
1.00	Deputy Superintendent - Field Operations
0.50	DPW Director
0.80	Gate Keeper
4.50	P4 Equipment Operator
1.00	P5 Cemetery Supervisor
5.00	P5 Skilled Equipment Operator
1.00	P5 Skilled Mechanic
1.00	P6 Foreman Mechanic
1.00	P6 Highway Foreman
1.00	P6 Public Grounds Foreman
1.00	P6 Transfer Station Foreman
0.19	PT Gardener
1.00	PT Seasonal Laborer
0.25	PT-5 Clerk
0.30	Stormwater Coordinator
20.34	Total Employees (FTE's)

Overall Proposed Budget

	FY 22	FY 23	Difference	% Change
Labor	1,568,259	1,644,918	76,659	4.89%
Expenses	2,219,775	2,171,857	-47,918	-2.16%
Total	3,788,034	3,816,775	28,741	0.76%

FY 23 DPW - OPERATIONS

421L - DPW Administration - Labor

Account Comments:

The FY 21 budget represents a reduction of one clerical FTE due to a resignation. The budget does fully cover a part-time employee that was previously not listed on the FTE chart but was paid through overtime budgets to cover vacations and absences in the office.

The FY22 continues to cover a part-time intermittent clerical employee who covers vacations and absences in the office.

Program Budget Notes

The DPW budget is organized into a series of budget programs. These are separate from the overall accounting area within the Town Budget. The line items in the Town budget are further broken down in the DPW's budget as sub accounts that roll up into individual Town line items. For example there are multiple DPW highway programs that have equipment maintenance sub accounts that roll up into a single Highway Equipment Maintenance account for overall budget development.

Program budgets are used to show the broad scope of the DPW's mission and are an attempt to quantify the cost for each major activity.

What follows are the program budgets for each of the programs in the 422 Highway budget group.

FY 23 DPW - OPERATIONS

422-023 - HW - Pavement

Program Budget Summary:

<u>Account Number</u>	<u>Account Name</u>	<u>Requested Amount</u>

Account Comments:

The Town converted from utility owned lihts to Town own LED streetlights in FY 19.
 The FY 20 and FY 21 numbers are somewhat skewed by credits from being overcharged at the tail end of FY 19 which were not applied until FY 20.

Through the first few months of FY 22, the credits from prior years have been used up and the cost has been \$1,900-\$2,100 per month

Budget Program Notes

The DPW budget is organized into a series of budget programs. These are separate from the overall accounting area within the Town Budget. The line items in the Town budget are further broken down in the DPW's budget as sub accounts that roll up into individual Town line items. For example there are multiple DPW grounds programs that have equipment maintenance sub accounts that roll up into a single Public Grounds Equipment Maintenance account for overall budget development.

Program budgets are used to show the broad scope of the DPW's mission and are an attempt to quantify the cost for each major activity.

What follows are the program budgets for each of the programs in the 425 Public Grounds budget group.

FY 23 DPW - OPERATIONS

425-023 - PG - B Everett Hall Field

Account Comments:

For safety purposes, the industry has shifted from traditional bucket work to tree removals using both buckets and cranes. Depending on th size, a single tree can cost as much as \$5,000 to remove. This shift is the result of an emphasis on safety.

The department has had to limit the number of take downs in order to live within budgetary constraints. The Tree Warden works with the utility companies in a collaborative manner which as resulted in Nation Grid assisting in controlling trees.

FY 23 DPW - OPERATIONS

425L - Public Grounds - Labor

Account Comments:

We have traditionally supplemented grounds staff with 2-3 seasonal workers in the traditional grounds areas (ballfields) and one seasonal worker working in the cemetery. These workers are typically college students working mid to late May through September 1st and are paid at the trainee scale.

Budget Program Notes

The DPW budget is organized into a series of budget programs. These are separate from the overall accounting area within the Town Budget. The line items in the Town budget are further broken down in the DPW's budget as sub accounts that roll up into individual Town line items. For example there are multiple DPW Transfer Station programs that have equipment maintenance sub accounts that roll up into a single Transfer Station Equipment Maintenance account for overall budget development.

Program budgets are used to show the broad scope of the DPW's mission and are an attempt to quantify the cost for each major activity.

What follows are the program budgets for each of the programs in the 433 Transfer Station budget group.

FY 23 DPW - OPERATIONS

433-022 - TS - Municipal Solid Waste

Program Budget Summary:

<u>Account Number</u>	<u>Account Name</u>	<u>Requested Amount</u>
01-433-5250 (partial 027)	TS EQUIPMENT - MSW	15,000

Account Comments:

From FY 01-FY 07 the transportation budget included costs for MSW, C&D, and Bulky
 These were transitioned to their own programs in FY 07

Switched from Cassella/Southbridge to Recycling solutions LLC 10/1/2016
 New contract is a transportation and disposal contract
 With the added haul charge the old contract to Southbridge was approx same as new contract to SEMASS Transportation and Disposal

Spring of 2020 recycling was shut down due to COVID. Recyclables went into the main pit for approx six weeks

Account Comments:

FY 01 - FY 07 Costs for MSW, C&D, Bulky were all lumped together and included equipment rental charges

The costs were distributed to programs in FY 07

The equipment rental charge went away in FY 10 as the Town purchased 4 transfer trailers

10/1/2016 the town switched from hauling to Southbridge to hauling to SEMASS

The new contract rolled transportation into the per ton price as a combined transportation and disposal contract

Account Comments:

Construction and demolition debris service is being eliminated for FY 21. The budget for this account was been set to zero.

Restoratioj of the service is proposed for FY 22. See notes under the refuse disposal budget for the proposed costs and revenues. As a user funded service, the equipment budget is bumped up to provide for regular replacement of roll-off containers which see significant wear and tear

Account Comments:

Construction and demolition debris service is being eliminated for FY 21. The budget for this account was been set to zero.

Resumption of service is proposed for FY 22 with the full cost, including 24 additional labor hours a week to be born by the users of the service. The budget proposes weighing and charging for ALL waste at a cost of 15-25 cents per pound with strict rules to maximize load sizes and minimize transportation costs.

FY 22	tbd	260	8.20 thru 11/21

Account Comments:

FY 16 noise complaints to DEP resulted in our curtailing of packing practices at the station, increasing the cost per load.

Construction and demolition debris service is being eliminated for FY 21. The budget for this account has been set to zero.

Restoration of the service is proposed for FY 22 as a completely user funded service. See refuse account comments for details. This account is set for a significant increase in our historic number of hauls as we do not plan to pack containers as tightly as we may have been able to in the past as a result of DEP restrictions..

FY 20	159	97
FY 21	270	95
FY 22	tbd	105
FY 23	tbd	

Account Comments:

From FY 01-FY 07 the transportation budget included costs for MSW, C&D, and Bulky waste. These were transitioned to their own programs in FY 07

FY 22: Due the elimination of construction and demolition service for FY 21, we anticipate a potential uptick in bulky costs to handle wooden furniture that was formerly processed as construction debris. New fees are proposed to help cover these costs. We have not entirely budgeted for this and may need a supplemental appropriation. The intention is to change how bulky loads are packed to hopefully get more tonnage per load as well as to try to divert usable furniture for reuse.

Account Supplemental Data:

FY 21	41	345	6.59
FY 22		260	

Account Comments:

Starting in FY 16 discontinued the practice of breaking up furniture with the backhoe die to noise complaints by a resident. This drive the tons per haul down.

Due the elimination of construction and demolition service for FY 21, we anticipate a potential uptick in bulky costs to handle wooden furniture that was formerly processed as construction debris. New fees are proposed to help cover these costs. We have not entirely budgeted for this and may need a supplemental appropriation. The intention is to change how bulky loads are packed to hopefully get more tonnage per load as well as to try to divert usable furniture for reuse.

FY 23	46,000	76.92 %	

Account Comments:

We have seen in increase in both the volume and cost of brish grinding over the past few years. This is due to some serious wind storms which have increased the volume as well as a likely component of out of town brush that is impossible to control without active monitoring.

FY 23: For FY 23 we are adding an additional grind of the brush pile, increasing the number from 2 to 3 as well increasing the cost of each grind.
